

INE's Mission

At INE, our mission is clear: to empower organizations and individuals with technical skills. We are committed to making high-caliber training accessible to organizations and individuals around the world, ensuring that teams not only meet industry standards but exceed them. By providing scalable learning solutions, we help you maximize ROI on your training investments and drive business growth.

Products

- **Team Training:** INE offers Business Professional and Enterprise plans as the ideal solution to keep your team on the cutting edge of the industry's leading technologies in networking, cloud, cybersecurity, and data science. Whether you have a team of 4 or 4,000, INE's business plans provide access to comprehensive training tools that will guide your team to success and master the technologies needed to increase productivity and performance.

- **Individual Subscriptions:** INE offers monthly and annual subscriptions to comprehensive Networking, Cybersecurity, Cloud, and Data Science training content, which includes 700+ courses, 50+ Learning Paths, and preparation for 28 vendor certifications.
- **Hands-on Labs:** Skill Dive is an immersive lab experience featuring thousands of hands-on labs not included in subscriptions. This is designed for learners who want to take the next step and dive deeper into practice modules. Expanded focus areas include Networking, Cybersecurity, and Cloud.
- **Certifications:** INE offers 10 industry-leading certifications that highlight an individual's application of practical skills in a real-world environment, including:
 - INE Security Certifications (FKA eLearnSecurity):
 - Junior Penetration Tester (eJPT)
 - Certified Professional Penetration Tester (eCPPT)
 - Mobile Application Penetration Tester (eMAPT)
 - Web Application Penetration Tester (eWPT)
 - Web Application Penetration Tester eXtreme (eWPTX)
